

Living Clean – Chapters 6 & 7 and Preface

OK Region Literature Review for Plains Area

What is it?

1. New book from the NA fellowship.
2. Review of final 2 chapters and the preface, it is not necessary to have attended for other chapters...you can start now!

Why Are You Needed?

3. In order to realize the vision for the book we need input from our members. We are seeking examples of practical application of the tools of recovery, some real boots on the ground experience, things we hear that positively affect our recovery and the results of applying the principles.
4. We want this book to sound like us in much the same way that the Basic Text speaks to us: a lofty goal to be sure, but one that is attainable if we all work to contribute to the project.
